## WORK EXPERIENCE

**CBD IT , Mumbai**   
*ERPNext Developer*

**Sep 2025 – Present**  
*Mumbai, Maharashtra*

**Technology Stack:** Python, ERPNext, Frappe Framework ,Java, HTML, MS SQL Server, Power BI

- **Cross-Functional ERP Implementation:** Collaborated with cross-functional teams in an Agile environment to implement and customize ERPNext modules, including **Manufacturing**, **Stock**, **Accounting**, and **CRM**, improving end-to-end business workflows and operational efficiency.
- **Real-Time Business Insights:** Designed and delivered real-time dashboards using **Frappe Insights** to monitor key business metrics such as inventory levels, sales performance, issue resolution, and financial KPIs, enabling data-driven decisions.
- **Reusable ERP Scripts and Reports:** Built **server scripts**, **client scripts**, and reusable **custom reports** across modules like **Helpdesk**, **Accounting**, and **LMS**, standardizing development and accelerating project timelines.
- Collaborated with business users, gathered requirements, developed reusable scripts and reports, and provided training. Ensured successful ERP rollouts within deadlines and supported post-go-live enhancements.

## TECHNICAL SKILLS
